**DETAILED ACTION**

***Response to Arguments***

1. Applicant's arguments filed February 7, 2005, with respect to the rejection(s) of claim(s) 35-49 and 53-58 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made as set forth below.

***Terminal Disclaimer***

2. The terminal disclaimer filed on April 23, 2003 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6,169,911 has been reviewed and is NOT accepted.

3. The application/patent being disclaimed has been improperly identified since the number used to identify the patent being disclaimed is incorrect. The correct number is **6,169,911** (6,196,911 is the incorrect number shown in the terminal disclaimer).

***Double Patenting***

4. The double patenting rejections made in the previous office actions dated November 7, 2001 and January 2, 2003 remain for claims 35-49 and 53-58 until a proper terminal disclaimer is filed. Based on the remarks filed February 7, 2005 and based on an updated search, there are no further rejections to the claims at this time.
